

# Dermatopathology Differential Diagnosis Regular Acanthosis

Paul K. Shitabata, M.D.  
Dermatopathology Institute

# Must Know Diseases

Disease	Differentiating Traits
Bowen's disease	Disordered keratinocytes and atypical mitoses
Clear cell acanthoma	Pale/clear keratinocytes well demarcated from normal epidermis
Psoriasis	Confluent parakeratosis above thickened epidermis, neutrophils in stratum corneum, normal keratinocytes, thin suprapapillary plates, dilated vessels

# Rarer Diseases

Disease	Differentiating Traits
